U.F.A. CONVENTION AT GRANDE PRAIRIE JUNE 19TH

Social Convention At Grande Prairie Largely Attended

Cap. Roberts Again President; Another Convention to Be Held Sometime In The Fall

First Part of Meeting For Members Only—Press Admitted Under Heading Of "New Business"—Vote Of Confidence Passed In Government And W. Sharpe, M.L.A.

There was a large representation at the annual convention of the Social Credit group in the Grande Prairie constituency, held in the I.O.O.F. Hall, Grande Prairie, on Wednesday. The agenda made it necessary to hold a night session.

President (Cap.) Roberts occupied the chair and H. W. Rogers acted as secretary.

Only members were admitted to the first part of the meeting, which was given over to discussion of matters directly pertaining to the organization itself. Under the heading of new business the press and others were admitted.

The following officers were elected: President (Cap.) Roberts (re-elected); vice-president, W. Oakford; H. W. Rogers, secretary-treasurer; Boyd Johnson, Warden.

The executive is composed of the seven area managers, who will convene in office to hold the convention to be held next fall.

W. Sharpe, M.L.A., who was present, was called upon to explain the tentative provincial constitution. He dealt only with the most important items.

"You will notice," said Mr. Sharpe, "that no member of the organization can be dismissed without being given a chance to defend himself. In case of the recall the member is required to step out. This is as it should be, as the member should be re-elected. If it is the wish of his constituency."

The question of finance was next taken up and considerable time was spent in the discussion of the subject. It was unanimously agreed to hold another convention in October. In future the annual convention will be held in June.

A resolution fathered by Denmitt group, that a point be held throughout the constituency on August 29, to celebrate the election victory, was passed. This idea will be sent on to the other groups throughout the province and it is hoped the suggestion will be acted upon and province-wide picnics held in future.

During the last part of "relax work" one man wanted to know why it was necessary to be on relief for two or three weeks before being allowed to go to work on government work. He was told this was the experience of several from the district who applied for work at Slave Lake. Mr. Sharpe said that there was a

Drouth Plays Havoc With Dakota Crop

BISMARCK, N.D., June 16.—North Dakota, principal producer of spring wheat in the United States, sent appeals to Washington Monday for aid in obtaining relief from the drought.

Attention was also drawn to the fact that men were taken from the relief camps of British Columbia and put to work on the railway out of Wainwright, on the Smoky River. "Considering that there are so many of work in this province, I do not think this is right," said a member.

It was explained that the provincial government had nothing to do with the railway. The money, which was given to the railway by the federal government, was earmarked.

Several resolutions on relief, distribution of seed grain and potatoes, roads, etc., were passed and given over to the executive for consideration.

One member suggested that in order to facilitate matters the handling of seed and twine should be placed in the hands of a member of the group and not in the hands of the R.C.M.P. Boyd Johnson thanked the meeting for his election to the responsible position of secretary-treasurer.

A vote of thanks was tendered the retiring secretary, H. W. Rogers, who in replying said that he was for Social Credit heart and soul, and he asked all those who voted Social Credit at the last election to support Mr. Aberhart and his government.

A hearty vote of thanks was also tendered Mr. Sharpe for his efforts as a member.

A resolution of confidence in the provincial government and in the Social Credit members at Ottawa was also passed.

The chairman at the conclusion of the convention urged the various groups to keep on studying, for, he said, it is only through study that the Social Credit can be finally brought about. He said that each group should have copies of the Social Credit paper, The Alberta.

"Cap" Roberts predicted that the Social Credit party, by winning a majority in the legislature, would form a government in Manitoba, would form the next government of that province.

"OLD BILL" REACHES VANCOUVER

"Old Bill," one of the two remaining London buses which carried British troops to the front in the early days of the Great War, was given a royal welcome when it arrived in Vancouver as London's first official children's visitor.

A group of Old Contemplatives met the bus and joined in a parade through the streets of the city. Owing to "Old Bill's" age and condition, however, they had to get off and push whenever they came to a sharp grade.

"Old Bill" is shown above having his first taste of Vancouver's hills.

Trelle Leaves With Greatest Exhibit of Grains In History

Says "We Will Put This Over In A Big Way"—Catastrophe of Golden Grain To Be Highlighted

Herman Trelle, accompanied by his family and Miss Sebastian, left early Thursday morning for Vancouver to set up and take charge of the "Peace River" exhibit.

On Wednesday, the Wheat King loaded the exhibit in a car at Wainwright. The exhibit includes the finest grain in history.

Mr. Trelle was all out to make the exhibit a success. "We'll put this over in a big way," was his motto.

The exhibit will be a highlight of the Vancouver Golden Jubilee. It will show the history of grain in Canada.

Future Policy of U.F.A. To Be Principal Subject Discussion; Irvine To Give Address Evening

To Initiate Steps To Introduce Social Credit

EDMONTON, June 16.—Within the next two months the government hopes to initiate steps necessary for the introduction of Social Credit proper in this province.

Premier Aberhart said today. The Premier said he was not prepared to announce yet the nature of the preliminary steps to be taken by the government.

Mr. Power, president, will occupy the chair, while C. F. Hopkins will fill the position of secretary.

Mr. Power, president, will occupy the chair, while C. F. Hopkins will fill the position of secretary.

Mr. Power, president, will occupy the chair, while C. F. Hopkins will fill the position of secretary.

Fifteen School Rooms Entered In School Fair

A meeting of the executive of the Grande Prairie District School Fair was held last Saturday.

Fifteen rooms are going to exhibit at the coming school fair, which will be held early in September. This is an increase of four rooms over the last year.

A new idea—namely, that of having all the school work judged previous to the day of the fair—should attract more time on Fair Day for parades and live stock judging.

The Department of Agriculture is again supplying judges for the agricultural and home economic sections, and the school work will be judged by Mr. Walker of the Department of Education.

The scholarship awards which are given to the girls and the prizes for the boys will be given on the day of the fair.

Father Hughes left Grande Prairie on Tuesday for the Block.

DECIDE TO DROP SANCTIONS

According to Father Hughes, who has been an Indian missionary for several years, conditions among the Indians of the various points are gradually improving.

Barney Hogg and J. Carey Take Over Donald's Stampede

On Wednesday Barney Hogg, well-known rider and stampede manager, and J. Carey, rodeo rider and promoter, took over the stampede from Frank Donald and the two-day big event will be run as previously arranged—on July 22 and 23.

Sound effects will be used as last year.

The program will follow the lines of the previous big stampedes put on by Frank Donald.

HEAVYWEIGHT BOUT POSTPONED

NEW YORK, June 18.—Heavyweight fight between Joe Louis and Max Baer was postponed because of rain. It is now set for Friday night.

Mayor Clashes With Coun. Oliver and Wishart at Council Meeting Held Monday Night

Rex Harper Of Hythe Appointed Full-Time Policeman—Russell Burgess To Be Works Foreman—A. R. B. Appointed Building Inspector.

THE atmosphere in the council chamber was "charged" at times on Monday night during the sitting of the town fathers.

G.P. Baseball Club To Hold Dance Friday, June 26

The Grande Prairie Baseball Club will hold a dance in the Elks Hall, Grande Prairie, on Friday night, June 26.

The dance will be run as previously arranged—on July 22 and 23.

Sound effects will be used as last year.

The program will follow the lines of the previous big stampedes put on by Frank Donald.

HEAVYWEIGHT BOUT POSTPONED

NEW YORK, June 18.—Heavyweight fight between Joe Louis and Max Baer was postponed because of rain. It is now set for Friday night.

Mayor Clashes With Coun. Oliver and Wishart at Council Meeting Held Monday Night

Rex Harper Of Hythe Appointed Full-Time Policeman—Russell Burgess To Be Works Foreman—A. R. B. Appointed Building Inspector.

Crude Oil Gusher Struck In Turner Valley On Wed.

TURNER VALLEY, June 17.—Alberta's development industry has reached more than a mile below the grass roots in Turner Valley.

The deepest and largest crude oil well in the British Empire, Turner Valley No. 1, struck oil at a depth of 1,500 feet.

The estimated run is from 700 to 1,500 barrels daily.

Big Social Credit Rally To Be Held At Rio Grande

RIO GRANDE, June 16.—Arrangements have been completed for a Social Credit rally to be held on the sports grounds here, Wednesday, July 22.

The speakers will be Ben Pollock, member of parliament for Peace River, Charles Johnson, M.P. for Bow River, Walter Kuhn, M.P. for Jasper.

BEAUFORT, June 16.—Rycroft stampede and sports will be held on August 4 and 5. This decision was arrived at by the committee.

The committee says: "Bring the whole family and enjoy the day at the Beaufort sports."

DeBolt Two-Day Stampede To Be Held July 7-8

Manager George DeBolt, who is a visitor to town, promises a "Bigger and Better" Stampede Than Any Ever Before Held East of the Smoky.

According to George DeBolt, manager of the DeBolt Stampede, which will be held on Tuesday and Wednesday, July 7 and 8, who is a visitor in Grande Prairie, the sports committee have for their objective the staging of the biggest and best stampede ever held east of the Smoky.

The DeBolt stampede have been for years one of the most outstanding annual events in the north country. This is a high mark at which to shoot.

Mr. DeBolt will be assisted by his wife, while his little daughter, Mary, and Miss Sebastian will be in attendance each day, dressed appropriately for the occasion.

The rodeo will be in the afternoon and the sports will be in the morning. A catwalk show seven feet high, over which riders will be jumping, will be in the afternoon.

There will also be a baseball tournament, basketball, etc. The two days, in fact, will be just full of something doing all the time.

The public is invited to see the hills and prairies for details.

BORN AT MUNICIPAL HOSPITAL

T. M. and Mrs. J. F. Smith of Hinton Trail, June 15, a boy.

Pouce Coupe, Dawson, Rolla Promise To Assist In Putting On Exhibit Vancouver Jubilee

Dawson Creek Experiencing Building Boom—Crops In Black Mud Promising—Two Members Of "Exhibit Committee" Have Pleasant Trip.

By J. M.

Over the week-end it was my pleasure to visit the Block, after over a year's absence.

I had for my travelling partner Cameron White, photographer. So, that is wrong. I was the travelling partner as Mr. White was the pilot of "The Northern Light."

Starting from Grande Prairie about 4 o'clock on Saturday afternoon, we travelled through the most beautiful scenery I have ever seen.

The reason for taking so much time was that stops were made at Wainwright, Beaver Lodge and Hasty.

At Beaver Lodge, while we were in talking to the manager, we were told that the "Northern Light" was a very good car.

Auto drivers know the peculiar sound. "There's a girl for some one," remarked Cameron. "It was a car and the engine was ours. When we once again got 'all set,' we proceeded on our way."

Masonic Lodge Is Instituted At Dawson Creek

Twenty members of the Masonic lodge in Alberta went to Dawson Creek on a trading trip, and instituted a lodge at that point.

Right Worthy William Threlkeld, of Dawson Creek, was elected master of the new lodge.

The lodge is named the "Dawson Creek Lodge" and will have a meeting on the 15th inst.

After the lodge was instituted, the members sat down to a delicious banquet in the Dawson Creek Hotel.

BEAUFORT, June 16.—Rycroft stampede and sports will be held on August 4 and 5. This decision was arrived at by the committee.

The committee says: "Bring the whole family and enjoy the day at the Beaufort sports."

IF OIL IS STRUCK AT POUCE COUPE WHAT A BOON IT WILL BE

If the prospective Pouce Coupe oil field turns out anything like Mr. Hill and those associated with him hope for and believe, and real oil, and lots of it, is brought in, it will give to this country a stimulus that is hard to other development could give.

At present the Peace River country practically depends on agriculture alone, or in other words, we are plodding in the mud. The striking of oil would mean that another good leg would be added and rapid progress would be made. If oil is struck in sufficient quantity, it is hard to fully imagine the effect.

The fourteenth lower half of the north-west corner of Alberta would be the first to feel the effect. The mud would mean employment to the idle men and housewives there. Then the blood and towns there would be benefited, for it would mean more money added to the stream which has been gradually drying up for the past five years and Pouce Coupe, Dawson Creek, Hilda, and other towns would benefit from the beneficial effects. Nor would these effects be limited to the province. The whole Peace River country would be stimulated and confidence in the country strengthened.

Peace River would be in direct line of the wave of prosperity.

Outside capital would be attracted, and every business throughout the country would be benefited.

It would mean that the syndicate now preparing to drill near Hilda, "that oil is there" will be realized, for the bringing in of the oil would mean there will be more to hasten construction of the Coast Outfit than any other one thing that could happen.

Along the Trail

By J. B. YULE

"A TOWN GIRL—NOT A COUNTRY GIRL"

The other evening I was travelling along Grande Prairie's main thoroughfare when I saw a young girl with three little girls who were gazing in at a show window which contained some wheat in glass containers.

I asked one little girl what kind of grain was in the glass. She replied that she did not know, but that she saw it was a wheat country and she should know.

The little girl shrugged her shoulders and replied: "No, I'm not a country girl. I'm a town girl."

And with her two companions she moved on up the street.

EVERY MAN TO HIS LINE

In travelling Along The Trail of life I have learned that the most one can know to a demonstration is little. This thought was forcibly borne in upon me during last week.

The Palace Club building is being enlarged—or, in other words, the foundation is extended several feet on the east side, with the necessary splitting of the building. Knowing that this had to be done, I looked at the building and tried to figure out how I, the contractor, Beaver and Turner, would have to do it.

Personally I had no more idea than a savage how this could be accomplished, once we learn how.

I kept an eye on the building and the process. Without going into detail, the building was split in the centre and the east side shifted on rollers to the desired position. When this was accomplished it all seemed so simple. In fact there is nothing difficult once we learn how.

"The incident is just another proof that the most we can really know during a lifetime is very little."

In the scheme of things some are like little fish in a big pond, some are like big fish in a small pond, and some are like the world carries on its many activities.

ED CARNEY IS EVEN TOUGHER

THAN THE WRITER

I was strolling over the grounds of the Buffalo Lake sports park during the sports last week when I almost had a bonfire with my old friend Ed Carney.

"Look here!" exclaimed Ed, and I knew he was right. "You're just the man I want to see. I take strenuous issue with an item you wrote in your column 'Along The Trail'."

I asked which one he referred to. "That one in which you invited all those rulers and politicians who are spilling for war to come to the area across the Wapiti and fight it out," he answered.

After I pleaded ability to write the said short article, Ed delivered himself as follows: "Why across the Wapiti? Why spill good timber? Why invite them to a place where there are plenty of trees? Why did you not suggest some place where there is no pretension, where there is no state of mind, where there is no the sun and the rain beat down on a man? Why not suggest a second 'Summit' situation? Then you would

be talking to the question. No, J. B., you are evidently too chicken-hearted altogether. Your article was along the right lines but you should have been a bit bolder."

Conversation drifted into other channels. "Cover" the local news field with fairness to all sections and parties; also to give the development of the Peace River Country and help make known this "Northern Empire" many advantages as a home-land. All news is printed without intentional distortion. The paper's opinions are expressed only in its editorial columns.

LOSING THAT GIRLISH FIGURE

Over the week-end I had a very pleasant chat with a girl who was like to meet those knights of the grip. They are like a refreshing cool breeze blowing in from the outside. This particular salesman is a big, broad, and well and powerfully built, but he was beginning to show "inflation" at the equator. He remarked upon this rather repulsive feature. He said that it was impossible to sit behind the wheel and drive thousands of miles and still retain that "girlish figure."

I suggested exercises to counteract this tendency.

"Well," observed the traveller, "why take the joy out of life? Why make work out of living? So far as I am concerned, I intend to go through life happy, even if it means making a few windows that should qualify me to seek a seat on the city council."

"No, Sir," replied the traveller, "your advice I agree is good and sound, but I slightly disagree. And the knight of the grip led to supply some merchant with his wares."

FROM "THE SACRED SOIL"

The other day The Tribune had the pleasure of a visit from Mr. and Mrs. Calverley, residents of the Peace River in Grande Prairie and Saskatchewan.

The visitors, who live at Shaunaville, Saskatchewan, the latter town from Ontario, Mr. Calverley from Illinois and Mrs. Calverley from Indiana, had been in the Peace River for a few miles from where the writer was born.

Mr. Calverley proved most interesting. He had been in the Peace River for a few miles from where the writer was born.

THE NORTHERN TRIBUNE

Conversations drifted into other channels. "Cover" the local news field with fairness to all sections and parties; also to give the development of the Peace River Country and help make known this "Northern Empire" many advantages as a home-land. All news is printed without intentional distortion. The paper's opinions are expressed only in its editorial columns.

LOSING THAT GIRLISH FIGURE

Over the week-end I had a very pleasant chat with a girl who was like to meet those knights of the grip. They are like a refreshing cool breeze blowing in from the outside. This particular salesman is a big, broad, and well and powerfully built, but he was beginning to show "inflation" at the equator. He remarked upon this rather repulsive feature. He said that it was impossible to sit behind the wheel and drive thousands of miles and still retain that "girlish figure."

FROM "THE SACRED SOIL"

The other day The Tribune had the pleasure of a visit from Mr. and Mrs. Calverley, residents of the Peace River in Grande Prairie and Saskatchewan.

The visitors, who live at Shaunaville, Saskatchewan, the latter town from Ontario, Mr. Calverley from Illinois and Mrs. Calverley from Indiana, had been in the Peace River for a few miles from where the writer was born.

Mr. Calverley proved most interesting. He had been in the Peace River for a few miles from where the writer was born.

THE U. F. A. AND C. C. F.

To the Editor of The Tribune:

There is no doubt that some antagonism exists between the U. F. A. organization and C. C. F. members. I have read in the Tribune of 1935 in the Palliser Hotel, Calgary, and seen the enthusiasm with which the U. F. A. delegates and members of these individuals, all voted for the C. C. F. They could not hold that view if they had been at the convention of 1936 in Edmonton and seen the formation of C. C. F. clubs in the cities, towns and villages of the province.

The U. F. A. platform is practically the same thing as the U. F. A. platform. It is practically the same thing as the U. F. A. platform. It is practically the same thing as the U. F. A. platform.

Timely Hints From the Beaverlodge Sub-Station

By W. D. Albright
"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

The installation—one of God's good blessings for the "peasants."

Two things the census enumerators have forgotten to do are the most common and the most serious.

A hundred and twenty varieties and strains of annual flowers tested at Fort Vermilion in 1935 resulted in a high state of development and twenty produced fully matured seed. Among these twenty were: calendula, lepto-eye stilkweed, nemosa, annua and perennial lupine, helianthus, and phacelia.

Grass and trees are not kindred spirits. They seek each other of nature and plant food. Make grass and weeds keep their distance from trees, shrubs and hedges. A six-inch vertical cut on a furrow landside will do much to check the encroachment of the weeds.

The state which neglects to cultivate the tourist crop is missing one of its very best bets. Parks and scenery are not only highly desirable for the enjoyment of its own citizens but are prime commercial assets. Courtesy is another such asset. The milk of human kindness is a great irrigator of the tourist crop.

Howling off tough-rooted grasses growing among shrubbery is next thing to foot labor. The grass soon grows up again. Use the top as a handle with which to pull out the roots, first loosening them with a fork, being careful that the fork does not unnecessarily jab or mutilate the roots of the trees and shrubs.

A harrowing in time saves a cultivating later on. A summer-fallow field kept clean in 1935 but still carrying weed seeds as the legacy of a wireworm-infested grain crop of eight or ten years ago was partly spring-harrowed in preparation for a grain crop, which, however, did not escape all the area thus prepared. The promptly harrowed part of the field with the aid of three later stirrings remained clean until June, having had all its weed seedlings killed in the vulnerable stage. An adjoining area which missed the early harrowing had to be spring-fallowed in June to destroy lambsquarters and buckwheat that had rooted in firm soil hence could not be killed by the harrow teeth. Timeliness pays.

A "Young Canada Construction Association" is proposed by Count Nicholas Ignatieff, of Toronto, to pro-

vide immediate work of a socially useful nature for boys leaving secondary schools and universities in order:

(a) To preserve them from the evil influence of unemployment at the very beginning of their careers;

(b) To enable them to acquire a wider working experience of Canada and develop a taste for healthful physical work as being forced into idle in unoccupied occupations;

(c) To revive in young Canadians the frontier spirit of cooperation, adventure and spirit of corps and make them nationally conscious.

(d) To provide a central employment service for young men which would help to place them in jobs in accordance with their interests.

It does seem highly desirable to direct the capacity and enthusiasm of young men into fruitful purposes in conservation enterprises, such as forestry, in the development of roads, bridges, parks and recreation facilities there should be a real field of social service for such men.

Summer-fallowing Simplified
Kindly advise when to summer-fallow and how to prepare the land in order to prevent cutworms. Next spring—J. H. Yulish, Centre, Alta.

Ans: One wonders whether cutworms or wireworms are meant. We recall few years in which cutworms have been an appreciable factor in field cropping, but wireworms we have with us every year. Fortunately the method of summer-fallowing now advocated for wireworm control fits in admirably with practices designed to control these species of cutworms troublesome in the North and also with the destruction of weeds and the conservation of moisture.

Further south there is a species of cutworm whose mother moth lays her eggs in loose soil but is deterred from doing so by a crusted surface. While that crusted surface also deters moths, the method of summer-fallowing now advocated for wireworm control fits in admirably with practices designed to control these species of cutworms troublesome in the North and also with the destruction of weeds and the conservation of moisture.

deeply in July. Some farmers are having good success by plowing fallow, making large use of the duck-foot cultivator. Others plow and then subside. This is a waste of labor and harrowed during the latter part of May, part of the area having been autumn-fallowed. This fallow is to be kept clean by cultivation as required, without any further plowing, in epidemic recommendations are:

1. Don't bury unsprouted seeds too deeply.

2. Don't plow or cultivate excessively deeply at any time.

3. Keep the fallow clean and especially free of large weed growth during August and early September.

The Sunday school, which meets on Sunday mornings at 10 o'clock, is still on the increase, with some 46 children enrolled and still more to come.

The church services at 11 o'clock are well attended. There was a meeting of the Church Board on Monday night and the board voted in favor of ordering the Rev. J. H. Yulish, of Centre, Alta., to be a guest at the church on Sunday.

The cemetery committee met with the church board and submitted a plan of a cemetery laid out with walks and shrubs. It was decided to lay the whole matter in the hands of the committee and clean up the cemetery, erect fences, and a regular line of fixing up and opportunity will be given to all and especially to owners of graves to come and help in the work.

Tilley, E. R. Turner, and W. Peterson are the committee and all helping hands are welcome to help.

Friday, June 26, was selected as the day for all the civic picnic (Sunday school children and the three public schools—Edson, Trail, and Mountain Springs).

The picnic was a great success. The committee have met and drawn the picnic money.

The friends will be pleased to know that our former minister, Warren Laing, is improving in health and takes an interest in the work of the church here. Mr. Laing's health is still going strong and while he may be away miles from us as the minister of the church, he is still in the community.

Please look out for notice of the cemetery clean-up and the picnic, June 26, at the church grounds.

By W. D. Albright

DEBOLT, June 10.—The above branch held their usual monthly meeting on the first Saturday of the month in their hall on the corner of the old Edson Trail, Comrade Wm. Perkins presided.

The meeting was held in the hall of the members standing while the two minutes silence was observed.

The social hour in connection with the meeting was a great success. The refreshments were served and Mr. Moss shared with a short prayer.

It is with deep regret that the people of Hythe as well as the church are so far from Hythe, and Mrs. Moss.

They have been a great asset to the community as well as the church. Coming in with the railroad, they have made many friends in the past seven years. Best wishes of all go with them in their new home.

Mr. Moss thanked the meeting very cordially and hoped that many of the members would be able to visit them and enjoy the comfort of the gift.

Refreshments were served and Mr. Moss shared with a short prayer.

UNITED CHURCH, DEBOLT

Mr. Kiteley has entered on his second season of work as a duck-foot cultivator. Others plow and then subside. This is a waste of labor and harrowed during the latter part of May, part of the area having been autumn-fallowed. This fallow is to be kept clean by cultivation as required, without any further plowing, in epidemic recommendations are:

1. Don't bury unsprouted seeds too deeply.

2. Don't plow or cultivate excessively deeply at any time.

3. Keep the fallow clean and especially free of large weed growth during August and early September.

The Sunday school, which meets on Sunday mornings at 10 o'clock, is still on the increase, with some 46 children enrolled and still more to come.

The church services at 11 o'clock are well attended. There was a meeting of the Church Board on Monday night and the board voted in favor of ordering the Rev. J. H. Yulish, of Centre, Alta., to be a guest at the church on Sunday.

The cemetery committee met with the church board and submitted a plan of a cemetery laid out with walks and shrubs. It was decided to lay the whole matter in the hands of the committee and clean up the cemetery, erect fences, and a regular line of fixing up and opportunity will be given to all and especially to owners of graves to come and help in the work.

Tilley, E. R. Turner, and W. Peterson are the committee and all helping hands are welcome to help.

Friday, June 26, was selected as the day for all the civic picnic (Sunday school children and the three public schools—Edson, Trail, and Mountain Springs).

The picnic was a great success. The committee have met and drawn the picnic money.

The friends will be pleased to know that our former minister, Warren Laing, is improving in health and takes an interest in the work of the church here. Mr. Laing's health is still going strong and while he may be away miles from us as the minister of the church, he is still in the community.

Please look out for notice of the cemetery clean-up and the picnic, June 26, at the church grounds.

By W. D. Albright

DEBOLT, June 10.—The above branch held their usual monthly meeting on the first Saturday of the month in their hall on the corner of the old Edson Trail, Comrade Wm. Perkins presided.

The meeting was held in the hall of the members standing while the two minutes silence was observed.

The social hour in connection with the meeting was a great success. The refreshments were served and Mr. Moss shared with a short prayer.

It is with deep regret that the people of Hythe as well as the church are so far from Hythe, and Mrs. Moss.

They have been a great asset to the community as well as the church. Coming in with the railroad, they have made many friends in the past seven years. Best wishes of all go with them in their new home.

Mr. Moss thanked the meeting very cordially and hoped that many of the members would be able to visit them and enjoy the comfort of the gift.

Refreshments were served and Mr. Moss shared with a short prayer.

HIGH PRAIRIE

GOOD RAIN BOOSTS CROPS
HIGH PRAIRIE, June 15.—A fine rain washed the land and gave a boost to the crops on Friday, June 12. The early days of June were marked by killing frosts along the West Prairie River, many gardens being blackened even to radishes and cabbage plants—and were to all early pumpkins. Hay crops are looking rather good so far, but with plenty of rain they will improve. Seedling is mostly finished, except for green feed.

Miss Eva Keady, who has been living in the East for several years, has returned and is gladly welcomed by all her friends.

Word received from Brule Moffatt and Leslie Kirkness, located, then safely at Trail, B.C.

"Monte" Bert Moffatt has started building his new house on his farm, the old Chelway place.

Charles Goss of Little Smoky was in the settlement last week on business regarding road work.

J. H. Johnson, our busy district engineer, passed through here on Thursday, en route to Slave Lake, where the new highway is being constructed.

SUNDAY SCHOOL GROWING

The Caravan Sunday school started in 1880 by Miss Eva Hase, O.B.E., at the G. W. Randall home. It is progressing nicely this year, new pupils being added each Sunday, until at present the enrollment stands at 50 pupils. On Whit Sunday a congregation of 45 children and grown-ups greeted Rev. Edward and Mrs. Linford for the afternoon service. While Mr. Linford played the organ and addressed the grown folks in the large hall living room, Mrs. Linford taught 40 little folks with songs and pictures under the spruce trees on the lawn.

One little nine-year-old girl, Mary Romanchuk, walked four and one-half miles and return to be present at this service.

Notbooks, making a Life of Christ for each child, with twelve chapters for primary and twenty-four chapters for senior grades, are progressing nicely, and we thankfully acknowledge a gift of cards from New St. Paul's, Woodstock, Ontario, where Bishop Severin was once a choir boy.

The Rev. Harding-Priest, Calgary, has also been most kind in his gifts of books and pictures.

Joe Jensen of the Peace River Creamery, with his wife, was a guest at the Bellows home last week-end.

The Ukrainian school which was held in the Community Hall on Saturdays and Sundays, has been closed and the teacher has gone to Edmonton.

Andy Craig has accepted a position with the Forestry Service and left on Saturday.

Several men from this district have been with the highway gang at Slave Lake, having taken engineering contracts under Kresge.

EXTRA VETERINARY OFFICERS WANTED

An examination open to veterinarians, who are graduates of a recognized veterinary college, and who are registered to practice in the province in which they are located, is to be held on July 8 next at Moncton, Montreal, Ottawa, Toronto, Winnipeg, Brandon, Regina, Saskatoon, Calgary, Edmonton and Vancouver. The names of those who pass the examination successfully will be added to the list of the veterinarians authorized to conduct tuberculosis tests of cattle for export to the United States, and in addition to the list of those receiving attention under the tuberculosis policies of the Dominion Department of Agriculture, and to collect blood for the Bang test from cattle for export to the United States.

The successful candidates will not be on the salary list of the Dominion Department of Agriculture, consequently they will make their own arrangements for remuneration for any work they perform with the live stock owner or shipper who employs them. They will be in a vicarious category as to the part-time veterinary inspectors. Prospective candidates will be advised of the time and place at each point at which the examination is to be held.

There is a large black bear killed on Al Powers' doorstep at 3 p.m. one morning last week. At going to investigate the racket, and having no time to secure his rifle, gave old Bruin a most drastic interpretation of the High and Flare to the accompaniment of a few blood-curdling yells. The bear, rather reticent, retreated to the color of Al's polyas, hurried through the back at a speed that would shame Sir John Campbell, and although we have waited patiently for him, night after night in the hope of securing a handsome bearskin rug, he has not yet put in another appearance.

The sports committee of the Eagle-South Progressive Association wish to thank the editor of The Tribune for the good turn he rendered them in exhibiting their poster. One good turn deserves another. Subscribers to The Tribune and keep pace with your world.

Plans are made to begin work on the new Catholic church this week.

George Macdonald has left for a short trip to Vancouver.

Mr. and Mrs. Roy Cameron are making a short trip to Saskatoon.

Mr. and Mrs. Neil Jacobson are being congratulated on the birth of a son, June 10.

EAGLESHAM NEWS

PROSPECTS ARE GOOD
EAGLESHAM, June 15.—A couple days steady rain, followed by glorious Alberta sunshine, makes our hopes run high. Gardens are looking marvellous, and the thirty crops are all feeling the benefits of the rain. Wild strawberries are ripe on the tracks, while lettuce, radishes, and green beans are everyday fare now.

EXTRA GANG AT WORK
The railroad tracks are coming in for a great deal of attention right now, with an extra gang from B.C. working long hours on it. They leave for Haham on Wednesday.

CONGRATULATIONS
Eagleham congratulates Mr. and Mrs. G. S. Cameron on the occasion of their marriage, and wishes them years and years of happiness. Mrs. Cameron is a sister of Mrs. Albert Audet of Eagleham, while Tony needs no introduction.

THEY BELIEVE IN 'EM NOW!
On Sunday afternoon the B. C. Foghorn challenged the Eagleham Mud Hens to a game of softball. Like the good sports they are, the little old Mud Hens took up the challenge and gave the Foghorns a real run for their money, although the latter were a small margin. The Mud Hens are always kind to visitors. Anyway, it was a game of satisfaction.

Albert Audet was robbed of a sure home run, making one the longest hit ever made on our diamond, while a triple play by O. Forget and A. Bolvin brought roars of applause from the assembled fans. The B. C. boys got the edge because they have had such excellent practice lately in running from the mosquitoes, things they had not had much practice in before.

They believe in 'em now!

BACK HOME
Mrs. Lander returned home on Sunday after a pleasant week-end spending visiting friends in McLean. Mr. and Mrs. J. D. Lander returned on Friday after a month's holiday at the Coast.

PRIZES THAT APPEAL
Ladies, if you want to entertain in style, enter the women's team and women's race at the Eagleham Sports July 18 and win a beautiful Irish linen luncheon set, tablecloth, four napkins, kindly donated by Woodwards Ltd., Edmonton. Another prize we liked very much is a pair of men's folk, two nice bat ribbons in an imitation leather satin-lined case. It's a pippin!

GOT THE BELL—ONLY NEED THE SCHOOL!
The school board are very proud of their first gift, a beautifully-toned hand-bell, donated to the school by Rev. Father Legault, the pastor of the district. Now if we had a school we could call the kiddies in!

HORSE KILLED BY FREIGHT TRAIN
Joe Girard, Haham, lost a good horse on Sunday morning when it strayed on the track and was run over by the first morning non-stop freight train.

CENSUS-TAKER IN DISTRICT
Mr. Harry Lander Haham, visited the district last week as census-taker. Apart from a chance encounter with a couple of bears and the marks of a ferocious canine in the rear of his leg, he found his trip interesting, and in was particularly impressed at the ease with which he was able to get the census taken from the old Father Time, assisted by the wind and weather, etches his lines too firmly in the country to admit of any evasion.

TO HAVE REAL HOUSE-WARMING
Frank Roussin left last week for Eagleham, last week after finishing his fine new house inside and out. He promises to have a real house-warming when he returns after harvest.

GIVES BEAR BAD SCARE
Bears are not in the category of a holder and holder. Several pigs in the district have been taken to satisfy their curiosity.

A large black bear landed on Al Powers' doorstep at 3 p.m. one morning last week. At going to investigate the racket, and having no time to secure his rifle, gave old Bruin a most drastic interpretation of the High and Flare to the accompaniment of a few blood-curdling yells. SPIRIT RIVER NEWS

BACK FROM TRIP TO MEXICO
SPIRIT RIVER, June 15.—Mr. J. P. McEwen and Mr. Gordon Wilson returned on Tuesday morning from their long motor trip down through the western states to Mexico. They report having called on a number of former residents of this district, including Mr. Charles Giles and Rev. A. Goss, who is now in a church in Hollywood.

PAYS FAREWELL CALLS HERE
Rev. G. S. Cameron of Haham, former United Church pastor at Spirit River, was visitor between trains last week. Mr. Cameron expects to return to Hamilton, Ontario, early next month, and was done to pay a few farewell calls amongst his old friends.

WILL BE BALL GAMES AT PICNIC
Tuesday, June 23, is Bessons' annual picnic, and with favorable weather there should be a good turnout. While it is not stated on the program, it is not unlikely that the baseball games will be held on this day.

RENOVATED UNITED CHURCH WILL BE READY SUNDAY
Hardly Recognizable As Old Building And Should Bring Great Pleasure To Congregation

During the past week of men and horses and tractors have been busy leveling the new sports grounds and when completed Bessons will have a ball diamond second to none in the district. It is due to the efforts of these men and tractors that the new sports grounds will be ready for use by Sunday.

SEEN AND HEARD
This young man missed the road and tore down some fence posts and collected them until he had a party of dancers enjoying a night out at Lindsay.

CROPS DOING FINE
With the warm showery weather we are having crops are making very good growth and one of us will be watching and waiting anxiously to see what 1936 has in store for us.

BEZANSON NEWS

HIT BY SEVERE HAIL STORM
BEZANSON, June 15.—A rain and hail storm of unusual severity passed over this district a few days ago. In some parts the gardens were cut up rather badly.

Mr. Louis Menard's house on the west side will have the hail marks for some time. Besides having his garden cut up, his current bushes also suffered in having all new growth on one side of the bushes cut off. We were lucky the wheat was not in head or this story would have had a bad ending.

WILL BE BALL GAMES AT PICNIC
Tuesday, June 23, is Bessons' annual picnic, and with favorable weather there should be a good turnout. While it is not stated on the program, it is not unlikely that the baseball games will be held on this day.

LONDON'S NEW UNIVERSITY TAKES SHAPE

The above photograph shows the extent of the new building of the London University as it appears when looking towards the British Museum. This new university, which is costing several millions to build, will be one of the most complete and most modern in the world.

FOUR OF CUBA'S PRESIDENTS HONOUR ISLAND HERO

An event probably no republic in the world today could duplicate was staged at Havana, Cuba, on the occasion of the dedication of a monument to General Jose Miguel Gomez, second president of Cuba and famous patriot. Among the celebrities present at the ceremonies were, left to right, President Jose Barnett, Miguel M. Gomez, president-elect and son of the second president, and Carlos Cespedes and Carlos Mendiolita, both ex-presidents, all of whom have figured prominently in stormy politics.

THE PASSING OF KING FUD OF EGYPT

The imposing funeral procession from the Abdine Palace to the Citadel was watched by crowds of sorrowing people who had come from all parts of the country to pay their last respects. The casket containing the mortal remains of King Fud is shown, draped with Kashmir shawls and the Royal Standard, passing through the streets of Cairo on its way to the El Rifai Mosque.

THE PAGEANTRY OF THE DRUMS!

Drummers, in all the glory of old-time customs of the British Army for four centuries, rehearse the item, "Music of the Drums" at Aldershot, England. It is one of the leading features of the spectacular Aldershot Tattoo, which takes place this month.

THE KING'S NEW ROYAL CYPHER

Here are the Royal Cyphers which have been approved by His Majesty the King. At the top left is the Royal Cypher that is used by all departments of state, public bodies, etc.; it is also the cypher which normally appears on regimental colors, standards, guidons, badges, arms and appointments. Top right is the Imperial Cypher to be used in India for similar purposes. At the bottom is the Royal Cypher, reversed and interlaced, a special design employed on the colors of certain battalions of the Foot Guards and on the appointments of such other regiments for which it is authorized instead of the Royal Cypher.

Olive Hamilton

EX-CLERK TO WED PLAYBOY HEIR

Attractive Olive Hamilton, former hotel clerk, fell from her rowing boat while rowing near the palatial yacht of William B. Leeds, young millionaire, several years ago. The simple heir proceeded to "fall for her," their romance dating from his rescue of the fair maiden. Their marriage plans were revealed while the two were cruising in Southern waters. A new picture of the "lucky lady" is shown above.

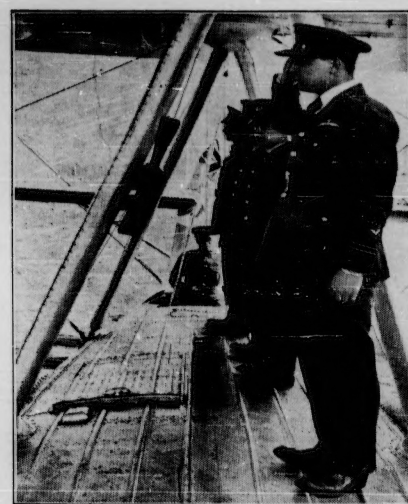

RE-ELECTED CANADIAN LEAGUE SOCIETY HEADS

Sir Robert Falconer, former president of the University of Toronto (left), and John W. Duff (right), editor of the Winnipeg Free Press, who were re-elected President and Vice-President, respectively, of the League of Nations Society in Canada, at the convention in Ottawa.

ENGLISH GIRL WINS HARD COURT CHAMPIONSHIP

Miss K. Stammers, brilliant young English lawn tennis star, is shown shaking hands with Dorothy Lissner after the English girl had won the British Hard Courts Tennis Championship at Bournemouth.

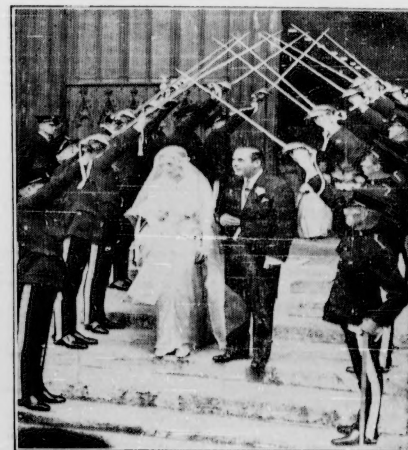

UNUSUAL SERVICE ON FLYING BOAT

For the first time in the history of the Royal Air Force a funeral service took place on a flying boat. It was held off Le Havre and was to the memory of Aircraftman William Watkin, who disappeared during an aeroplane accident at this spot. Members of the crew of a huge Singapore flying boat are shown standing to attention during the service.

OHIOAN MARKS 111TH BIRTHDAY

Instead of offering a formula for longevity, John H. Davis celebrated his 111th birthday at his home near Washington, Ohio, by playing cards for three hours, greeting relatives and friends and also telling pioneer stories to several of his 100 grand-children. Davis is pictured here with Joe Francis Hamford of Wilmington, his 100th grand-child. He reads without glasses and has voted in every presidential election since 1840.

PICTURESQUE WEDDING IN HISTORIC YORK MINSTER

More than 2,000 guests watched the brilliant wedding in York Minster of the Earl of Fife and the Hon. Anne Wood, daughter of Viscount Halifax, former Viceroy of India. The bride and bridegroom are leaving the famous Cathedral and are walking under an archway of swords formed by the Guard of Honor from the Yorkshire Hussars.

Gleanings of Interest To the Women Folks

By THE GLEANER

MY WORLD

By Anne Campbell.
Because my world is one of thought
I shall not pine.
For velvet ease and rich upholstery
And lamps that shine.
Because my world is one of dreams
I shall not care.
If it's a big house or a little house—
If you are there!

Mrs. R. Bromley was the guest of
honour at a tea given by Mrs. Mc-
Millan on Monday afternoon.

ENJOY GOOD TIME

At HALWA RANCH
The Academy girls were among the
28 guests who enjoyed a thoroughly
good time at the Halwa ranch on
Saturday. A picnic lunch—much more
than an elegant sufficiency of
delicious ice cream for each guest—
was the first item on the program.
Then a strenuous game of softball—
and, later in the evening, a most
sumptuous chicken dinner, including
some Polish dishes, was served.

TURN PICNIC INTO PARTY

As the weather clerk was not in-
formed in sufficient time to provide
the necessary rise in temperature, the
picnic Mrs. W. W. Phillips and Mrs. Hill-
man planned in honor of Mrs. Bert
Bromley was turned into a party. This
was held at Mrs. Hillman's home on
Wednesday afternoon.

SILVER TEA FOR O.E.S.

Mrs. F. Robinson and Mrs. Poppin
are holding a silver tea on Friday
afternoon (weather permitting), at
the latter's home, for members of the
O. E. S.

TO LEAVE FOR ENGLAND

Miss Daphne Connell, who was
Mrs. G. Gant's overnight guest on
Monday and the guest of Mr. and Mrs.
Sanger-Davies the rest of the week,
expects to leave on tomorrow's train
en route for England. She intends
breaking her journey at Winnipeg and
Toronto to visit with friends. "Bon
voyage," Daphne and a happy and
speedy return to the little town where
you made many friends.

Mrs. Ernie Robideau of Beaman
was in town on Thursday of last
week, and was a visitor at the home
of Mrs. John Connolly.

A FRIEND PASSES

The Studio Library is "non ex-
istat." Quite apart from the many
hours of delight the first collection of
books gave us, there was a never-
varying number of sincere welcome
within its portals that now is as
lost as we would be the death of a
friend. The Studio Library is now
final—so we may hope that someday
some warm golden light will
stream again through the yellow cur-
tains of the self-same Studio Library.

Ghostly experiences were related in
the evening by a group of kindred
spirits on Thursday evening at the
home of Mrs. M. P. Storm.

IMBIBE DELICIOUS TEA AND ENJOY DEEP SUBJECTS

A delicious tea and a lively con-
versation (on shoes and slippers and
sewing) on "Theosophy, Spiritu-
alism, character by palmistry and by
hand-writing—this just to show that
gossip does not emanate from 'pink'
tea's" took place at the home of Mrs.
O. Falconer on Monday afternoon. All
went home very reluctantly and very
late (9 p.m.).

Mrs. Lewis entertained a few of
her friends at the tea hour last
Friday.

The Ladies' Aid of Forbes Presby-
terian Church met at the home of
Mrs. Kenny on Wednesday afternoon.

CANADIAN REGIMENT SINGS WREATH TO VIMY

A wreath to be placed on the Vimy Ridge Memorial has been
prepared and forwarded by the 54th Battalion Association, formed
shortly after the war by the men in British Columbia who served with
the 54th Battalion. On the battle flag of the 54th Battalion appears the
names of the following sections in which the battalion took a prominent
part: Lens, Vimy Ridge, Somme, Passchendaele, Amiens, Arras,
Barbarous Wood, Cambrai and Valenciennes. Above is a picture of the
wreath being sent to France.

Thursday:
8:00 a.m.—Bible Study Class.

CHRISTIAN SCIENCE
At all Christian Science churches
next Sunday the subject of the
Lesson—Sermon will be "Is the Uni-
verse, including Man, Evolving by
Atomic Force?" The following is one
of the scriptural quotations contained
in the Lesson: "Know ye that the
Lord he is God: it is he that hath
made us, and not we ourselves: we
are his people, and the sheep of his
pasture" (Psalm 103:19). One of the
correlative passages from Science
and Health with Key to the Scrip-
tures, by Mary Baker Eddy, is as
follows: "The spiritual evolution
alone is worthy of the exercise of
divine power."

THIRUNE WANT ADS
BRING RESULTS

Pouce Coupe ..

(Continued from Page One)

me of travelling through a large
wooded park, observed Cameron. The
same thoughts were in the writer's
mind.

Improvements were noted in the
highway, hills were lowered and sharp
corners corrected or improved.

At last Pouce Coupe came in sight
and before long we retired to our beds
in the Hart Hotel.

Early in the morning a deep fog
hung over the valley, giving the im-
pression that one was looking at a
ghost town. As the fog lifted it dis-
covered one of the most beautiful
scenery I have ever seen, the hills and
valleys being clothed in deep green.

The landscape seen from the Hart
Hotel never fails to impress the
visitor.

I have always thought until today
that the elevation at Pouce Coupe was
much higher than that of Grande
Prairie. I find this is not so. I am
a foot taller than the elevation at
Grande Prairie.

The elevation at the post
office at Grande Prairie is 2,155 feet.
Pouce Coupe, 2,122 feet, and the elevation
at Brainerd is 2,042 feet.

At Pouce Coupe we had the pleasure
of meeting an old friend of mine, Ser-
geant Duncan, and a pleasant half
hour was spent in his company, dis-
cussing happenings of a few years.

We were informed that the people in
the country were practically well-
housed, which speaks volumes for the
efficiency of the public.

We went on to Dawson Creek, where
the president of the Board of Trade,
Bill Foster, met us. When Cameron
met the executive of the Board to
consider the matter of assisting in
the construction of a road to the
creek and the executive im-
mediately decided that the same was
a worthy one and appointed a committee
to get it done.

Personally, the meeting was a very
pleasant one. Fortunately I was
able to see the country, while Cam-
eron was in the cupola of one of the
elevators snapping a picture of
the country.

The Dawson Creek Hotel, owned
by Mr. McEachern, is a very fine
plumber hotel man of the Block, is
being enlarged. The extension will
give the hotel four stories. I think
Fourth Avenue, one of the main streets,
this addition will be a great help to
the community.

Mr. McEachern is building a large new
store, which when completed will be
one of the finest in the district. The
Dew Drop Inn was also making a
large extension, one built along
Fourth Avenue.

Another business building nearing
completion is one being constructed
by Mr. McEachern. Several more
also were noticed under construction.

In word, it seemed that the
future of Dawson Creek had come
to the conclusion that the de-
velopment of the town was a fact
and will have all the latest appoint-
ments in modern construction.

19 years and who built from near
Naples, Ontario, after the business
part of his conversation was over
was reminiscent and recalled the
days of Sir John A. Macdonald, when
he knew personally. Mr. Vandewater
said he heard the great Sir John make
his last public speech. Sir Oliver
Kowensky, who was premier of Ontario
for over thirty years, was another of
the great men whom he had the
pleasure of meeting.

As the sun was sinking in the sky
we returned to Pouce Coupe, where
we met Tom Jamieson, president of
the Associated Boards of Trade and
who is also a commissioner of the
town of Pouce Coupe. He too prom-
ised that the commission would assist
in the "Exhibit".

The Northern Light was then
turned homeward. About three miles
on the other side of Brainerd it be-
gan to rain and how it rained!
Each drop seemed to think it was its
special duty to molest the whole
area.

Of course we just naturally stopped
at Brainerd for dinner.

New Cameron, White, despite his
huge height, is a very small eater.
He gets along on the small por-
tions of food that he consumes is a
mystery to me. But it is said that
even Homer nods. When Cameron
sat his large blue eyes on the many
good things that the exhibit had
become a changed man—in fact, al-
most inspired. His attack on the
soup was most many other articles too
numerous to mention, was fierce and
sustained. So much so that it was
difficult to get him to leave his
position behind the wheel of "The
Northern Light".

Mr. Cameron, for several miles, and
then dry roads for the balance of the
day.

Something should be said about the
crops along the way. The crops on
the exhibit are all somewhat further
advanced than they are on the Al-
berta side, and farmers were very
proud of their crops. The wheat, in
moisture, the whole country having
enjoyed many hours of rain. On the
Alberta side the crops also looked
encouraging.

Oh, yes, here is another item: Only
one rabbit was seen on the trip.
